

Regional Skills Relocation Grant

Fact sheet

Regional Skills Relocation Grant

The NSW Government has established the Regional Skills Relocation Grant to increase the availability of skilled and experienced workers for businesses setting up in, relocating to, or existing in regional NSW.

Grants will be available for regional NSW businesses operating in eligible industries to assist with the relocation costs of eligible skilled workers moving from metropolitan areas to regional NSW.

Approved businesses will be reimbursed up to \$10,000 to assist with the relocation expenses incurred by the eligible skilled workers they employ. The relocation expenses covered by this grant are:

- furniture removal
- travel for immediate family to relocate
- temporary accommodation for up to three months
- furniture storage for up to three months.

The NSW Government has committed \$10 million for applications over the next four years; \$2.5 million will be available each year, providing 250 grants of up to \$10,000.

Eligible industries

Eligible industries vary by region and are identified in the Regional Economic Development Strategies (REDS). These regions normally have a competitive advantage and tend to trade goods outside the local area or sell services to non-locals. Retail and restaurants are ineligible because they only operate and sell locally. Examples of eligible industries include:

- agriculture
- forestry
- manufacturing
- mining
- tourism.

The government has determined eligible industries for each region using the applicable REDS prepared by the Centre for Economic and Regional Development. Further information on industry eligibility is available at dpc.nsw.gov.au/REDS
