**School Based Education Support** - work in education settings providing assistance and support to teachers and students

**Community Services** - provide person-centred care services in community settings or with community-based programs

**Individual Support (Age Care and Disability work)** - work in community or residential settings providing person-centred care and support

**Assistant roles** in Allied Health, Nursing, Patient Care Support, Health, Dental, Pharmacy Support.

### SBT BENEFITS

#### SBT benefits

- Identifies suitable young people keen to jumpstart their career while completing school
- Employed, trained part-time while completing Year 12 and get a nationally recognised qualification
- Get a good start with a real job, real skills and a training wage
- Pathway to further VET study or go to university.

School Based Traineeships (SBTs) allow the student to be employed one day a week on the job learning new skills in their chosen qualification. SBTs support students while remaining at school to pursue their career pathway and gives them a head start in getting a full qualification and a rewarding job.
